

# "We the people..."

These three glorious words of our Constitution set forth the foundation of our Union—its rights and liberties. We the people have too quickly abdicated our responsibility to establish a more perfect Union. Action established this country, and we're asking you to join with us as "we the people" reestablish the country and ideals that our forefathers once envisioned.

Give Me LIBERTY

## Protect our liberty

To continue doing the same things, expecting different results is the definition of insanity. Our national government is broken and cannot be fixed. It is futile to continue to pour our resources into Washington while we continue to get the same results—a bigger, more intrusive government that progressively shrinks our personal liberty. We are told the problems are racial (black vs. white), Republican vs. Democrat, and liberal vs. conservative. These are divisive and distracting labels, which are robbing us of our unity and power. The real crisis is tyranny and losing our liberty.

## Reclaim America for Christ

We believe that, if one state will be bold enough to stand on the Constitution and biblical principles, others will follow.

We must reestablish a culture based on state sovereignty as defined in the Constitution and stop recognizing Washington's unconstitutional abuse of power. The national government has no constitutional authority to:

*Murder the unborn*

*Contradict God's natural law on marriage*

*Impose Obama Care*

*Demean and attack our Christian faith*

*Transform us into a socialist state*

*Control our educational institutions*

We can only do this by exercising our right to choose our leaders based on values and character as opposed to continuing to watch the candidates with the most money buy elections.

We believe this can only happen if Bible-believing Christians engage in this war for the soul of America through...

### Nehemiah Network

*Building a network of teams in every precinct that will only be concerned with working with the people in their precinct.*

### Values Unite Us

*We must ensure that every person in each precinct that stands on biblical/moral values is voting for the candidates (at all levels) who hold the same values—regardless whether they run as an "R" or a "D."*

### Ministers Together

*A program that will educate Christian candidates and pastors that they are God's ministers in all spheres of life (family, church, and government).*

### Challenge & Support

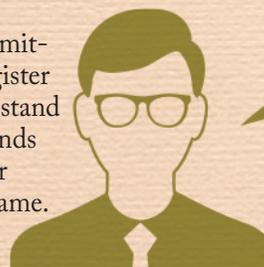

*Challenge candidates to pledge and exercise all their civic duties based on biblical principles and call pastors to pledge their support for such candidates, pray for them, and give them access to these pastors.*

### Informational Brochures

*Produce brochures identifying every candidate that took a pledge and supply these to all precinct leaders for distribution prior to the primary and the general election.*

## We need an army

We need an army of solidly-grounded Christians that will make a commitment to simply work in their precinct, encourage their neighbors to register and vote, and inform them of which candidates have taken a pledge to stand on biblical values. This can only be accomplished if you invite your friends and acquaintances—who are concerned with the direction in which our country is going—to join this volunteer army and ask them to do the same.

**Alternatively we lose America as a free nation.**

*I pray that we will stand together as a royal priesthood and holy nation and call this nation to repentance.*
